

# ZERO-TRUST MICROSEGMENTATION

## TRUEFORT PLATFORM

TrueFort's cutting edge microsegmentation platform enhances security posture and streamlines threat detection and response.

The platform dynamically segments and monitors interactions between applications and users to prevent unauthorized access and lateral movement of threats.

TrueFort empowers security teams to define and enforce policies across hybrid and multi-cloud environments. The platform analyzes application behavior and network traffic patterns, so organizations can adapt and respond to evolving threats in real time.

## BENEFITS

- ✓ Reduced attacks and minimized risk of lateral movement of threats
- ✓ Adaptive, real-time security response through analytics and machine learning
- ✓ Regulatory compliance through strict access controls and monitoring capabilities
