

EMPOWERING EFFICIENCY WITH ACCELA SOFTWARE SOLUTIONS

INTRODUCTION

The 3SG Plus and Accela partnership delivers comprehensive building, zoning, and permitting software solutions tailored to government agencies. This collaborative venture provides public agencies with a robust platform designed to streamline efficiency, enhance compliance, and improve transparency and citizen engagement.

3SG Plus is an authorized Accela reseller, integrator, and professional services provider. We deploy customized Accela solutions and integrate Accela software with other agency platforms to enhance functionality and effectiveness. We also provide onboarding assistance and post-implementation support.

Our team brings over 10 years of experience configuring Accela platform and regulatory compliance. Our expertise and comprehensive support services enhance operational effectiveness, boost transparency, and maximize the value and impact of their Accela software.

3SG Plus is a certified minority-owned technology reseller and IT services provider headquartered in Columbus, Ohio. We specialize enterprise in providing content management, digital transformation, and cybersecurity solutions to public agencies and private sector clients.

Accela is an industry leader in powering communities that thrive and empowering the people who lead them. The company designs and delivers government software to improve efficiency and increase resident engagement.

Accela provides a unified cloud-based platform of ready-to-deploy permitting, licensing and code enforcement software solutions that accelerate growth, efficiency and transparency in communities of all sizes. The open and flexible technology helps agencies address specific needs today while ensuring they are well prepared for the emerging challenges of the future.

Planning departments play a pivotal role in ensuring safe, attractive, and inclusive communities for diverse demographics. Government agencies must establish consistent policies, manage infrastructure, and align developments with master plans to facilitate safe and compliant growth.

AGENCY CHALLENGES

Navigating the complexities of planning and development comes with its share of challenges.

Increased data entry error risk with manual plan review and approval processes

Project delays for contractors and companies waiting for approvals and permits

Inefficient compliance enforcement of local codes, regulations, and ordinance

Manual communications and data sharing among agency and contractor personnel

Loose and ambiguous planning with many moving parts

Increased time, money, and resources required to process fees

OUTCOMES OF ACCELA SOFTWARE

With 3SG Plus, agencies benefit from an integrated solution and post-implementation support to ensure business outcomes are met.

Improved economic growth through error reduction and plan review acceleration

On-time and on-budget project completion through faster approval and permit processes

Ensured compliance with local codes and regulations through real-time alert notifications

Real-time communication and data sharing with immediate visibility for all stakeholders

Streamlined project planning through automated workflows and approval processes

Cost savings through automation and resource reduction

ACCELA SOFTWARE FEATURES

The Accela platform includes a comprehensive suite features designed to modernize agency operations including the following:

- Modern, intuitive interface
- Electronic document review and approval management
- Workflow management and task automation
- Code enforcement and compliance
- GIS mapping for interactive visualizations
- Online portal for staff, contractors, and citizens
- Convenient online ACH and credit card payment processing
- Built-in reporting for agency productivity insights
