

REVOLUTIONIZE OPERATIONS WITH DIGITAL TRANSFORMATION SERVICES

INTRODUCTION

At 3SG Plus, innovation and transformation converge to shape the future of your enterprise. Our innovative transformation solutions are crafted to catapult businesses into the forefront of digital advancement, providing a comprehensive array of services tailored to meet the dynamic needs of contemporary organizations.

Digital transformation plays a crucial role for companies to stay competitive and relevant in today's dynamic market landscape. Our solutions encompass a wide array of cutting-edge technologies and strategies including zero-trust microsegmentation, IT Infrastructure Services, Projects on Demand, and technology resource augmentation.

3SG Plus is a certified minority-owned technology reseller and IT services provider headquartered in Columbus, Ohio. Our services include enterprise content management, digital transformation, and cybersecurity. We are also a premier TrueFort reseller.

We offer digital transformation solutions tailored to our clients' unique needs. Our services pave the way for secure, scalable environments. Customers benefit from our utilization of robust software and industry best practices, ensuring efficient management of data flow within their systems.

With over 20 years of experience in cybersecurity, workflow automation, and IT, customers can trust that 3SG+ possesses the knowledge and skills necessary to address their needs effectively, providing solutions that are informed by years of industry experience and best practices.

ZERO-TRUST MICROSEGMENTATION WITH TRUEFORT

3SG Plus partners with TrueFort to deliver an advanced microsegmentation platform tailored to enhance your security posture and streamline threat detection and response. Our solution dynamically segments and closely monitors interactions between applications and users to prevent unauthorized access and thwart the lateral movement of threats.

Our microsegmentation platform empowers security teams to define and enforce policies across hybrid and multi-cloud environments. Leveraging cutting-edge technology, our TrueFort solution analyzes application behavior and network traffic patterns in real-time, so organizations can adapt and respond to evolving threats.

Leverage cybersecurity expertise from 3SG Plus to develop a comprehensive security strategy

Customize your microsegmentation software to meet your unique IT requirements

Enhance security posture by segmenting and monitoring interactions between applications and users

Streamline threat detection and response to defend against evolving cyber challenges in real-time

Enforce security policies across on-premises, hybrid, and multi-cloud environments

IT INFRASTRUCTURE SERVICES

3SG Plus offers a comprehensive range of IT and network solutions designed to meet infrastructure needs and safeguard data integrity. Our IT services encompass Nutanix Hyperconverged systems setup, streamlined VMware gold images deployments, server-level security enhancements, Active Directory domain controller configurations, and disaster recovery support.

Our network services ensure customer environments are scalable, secure, and compliant with industry standards. We provide strategic network architecture design, scalability and redundancy planning, security enhancements, network routing and switching configuration management, and proactive traffic volume monitoring and remediation.

PROJECTS ON DEMAND

We help customers complete IT projects that exceed the capacity of their internal teams. Our dedicated professionals step in to handle outlying projects and ensure every task receives the attention it deserves.

Projects on Demand (PODs) includes comprehensive project management and staffing resources. Our experts work closely with you to understand project objectives and deliver tailored solutions that meet and exceed expectations.

We manage resources, project timelines, and financial constraints to ensure all work is completed on time and in budget. Through our integrated approach, we empower organizations to overcome IT project challenges and drive success and innovation in the digital landscape.

BENEFITS OF PODS

- **Cost Efficiency:** Minimize project execution and staffing costs
- **Access to Domain-Specific Expertise:** Utilize our experienced team for project management and resource allocation
- **Outcomes-Based Delivery:** Meet project objectives, timelines, and budgets without delays or additional expense

TECHNOLOGY RESOURCE AUGMENTATION

3SG Plus offers Technology Resource Augmentation services that strategically fulfill workforce needs, so companies can prioritize their core goals. Our resource augmentation services deliver qualified candidates to supplement your existing workforce on a temporary or long-term basis.

We handle all aspects of the recruiting process to provide businesses with the flexibility to manage fluctuating workloads, tackle specialized projects, and embrace emerging technologies without the intricacies of traditional hiring processes.

REVOLUTIONIZE OPERATIONS WITH DIGITAL TRANSFORMATION SERVICES

WHY 3SG?

Customers should choose 3SG Plus for Digital Transformation Services because of our commitment to understanding their unique needs and delivering tailored solutions that drive tangible business outcomes. Unlike other providers, we prioritize deep collaboration with our clients, working as partners rather than mere service providers.

Collaborative Partnership

We work closely with partners and clients to deliver business outcomes and long-term value.

Customized Solutions

Our digital transformation services meet each customer's specific needs.

Ongoing Support

Our commitment extends beyond project completion to ensure maximized ROI.

CONTACT US

Nanda began his career as a real estate developer in California before becoming the President of an alternative energy firm. After relocating to Ohio, he established the original 3SG, and his forward-thinking vision drove the company to become one of the fastest growing businesses in Central Ohio.

With his background in electrical engineering and a business degree from Franklin University, Nanda brings a unique combination of technical expertise and business acumen to his role.

Nanda is passionate about improving community health and is dedicated to enhancing the technologies utilized by both government entities and private industry.

Apart from his professional pursuits, he is also an enthusiastic runner, having successfully completed over 10 marathons.
